

Magnetic particle inspection - fluorescent

Concentrate – water based

Fluorescent, yellow-green (535 nm), particle size 3 µm, free from halogens, chlorides, nitrite and silicone. Waterbased test fluid with rust protection, surfactant and defoamer

FLUX-Concentrate KD 440

1 litre conc. for approx. 40 litre water
5 litre conc. for approx. 200 litre water

Order number: 1900221-2
Order number: 1900222-2

FLUX-Concentrate KD 441 DB

1 litre conc. for approx. 40 litre water
5 litre conc. for approx. 200 litre water

Order number: 1900223-2
Order number: 1900224-2

Concentrate – oil based

Fluorescent colour yellow-green (535 nm), grain size 3 µm, free of halogens, chlorides, nitrite and silicone. Oil-based with wetting fluid.

FLUX-Concentrate KD 240

1 litre conc. for approx. 40 litre oil

Order number: 1900155-4

Aerosol – oil based, ready for use

FLUX-Concentrate KD 365

Gross volume 650 ml

Order number: 2004821-2

Test suspension – oil based, ready for use

FLUX-Concentrate KD 04

5 litre conc, flash point 105 °C

Order number: 1900162-4

Magnetic particle inspection - black

Concentrate – water based

Black, grain size 0.2 µm, free of halogens, chlorides, nitrite and silicone. Water-based testing fluid with rust protection, wetting agent and anti-foaming fluid.

FLUX-Concentrate KD 220

1 litre conc. for approx. 100 litre water

Order number: 1900350-1

Concentrate – oil based

Black, grain size 0.2 µm, free of halogens, chlorides, nitrite and silicone. Oil-based testing fluid with wetting fluid

FLUX-Concentrate KD 330

1 litre conc. for approx. 40 litre oil

Order number: 1900140-4

Aerosol – oil based, ready for use

FLUX-Concentrate KD 550

Gross volume 650 ml

Order number: 2004820-2

Magnetic particle inspection
